Curtis R.; open woodland, moon
grass; mixed smoothbark
bloodwood, ironbark; *Culflina*
on smooth barks; SITE 1

returned onto Hwy. 5.

551.6 turned lt. into airport

552.0 mixed dry sclerophyll
forest, smooth & iron barks; some
^{McAlpine} lower *Acacia*, *Flindersia*, *Casuarina*,
kunai & other mixed grasses.
Culflina mainly on *Flindersia*,
but a few on *McAlpine* &
smooth barks; none on
stringy & iron bark SITE 2
return

SITE 3

560.6
177

552.4 = 551.6 turned rt.

556.0 = 546.2 contd. thro' main st.
of B'berg.

557.6 turned rt

560.6 Baldwin Swamp SITE 3
mixed low fresh water swamp
forest; melaleuca, acacias, etc.
20' old emergent ecos. *Cyphophanes*
on *Acacia* with similar trunk
& bark to *Flindersia* at
previous stop2/8

5.79.9 B'berg. Pl. Sta.

5.84.1 Airport turn-off

600.9 turned rt. off hwy.

602.9 turn off to rt.

605.5 Pine Creek

606.0 turned off to lt. (Pine Creek Rd.)
walked ca. 7 km SSW along

forestry tracks along ridge top,
mainly thin soils, some small
areas of broken sandstone.

Dry sclerophyll ^{forest} with some
variation in species composition,
discontinuous canopy. All

tall trees eucalypts: iron
barks, stringbarks, "blue gum",
bloodwoods. Understorey:

Acacia spp., Jacksonia sp.,
Casuarina sp., Flindersia sp.
Sparse shrub layer, short
grasses. Cudfira or Acacia
Flindersia, smooth bark euc,
Casuarina; no apparent sp.
preference but mainly 1/2 to 4"
diameter; always vertical
stems only.

3/8

6.52.1 Big Police Station

6.66.4 Airport turn-off

673.0 = 600.9

673.3 turned rt.

679.3 turn off rt. to abandon farm

680.0 left car & walked west

ca. 1 km to Pine Cr. ~~valley~~ (SITE 4)

Continued (SITE 5) W. to WNW ca. 1.5

km to clearing; ~~collected~~ thenturned N for ca. $\frac{1}{2}$ km (SITE 6)Returned along forestry track to
crossing of Pine Cr.

SITE 4: large abandoned farm;
much regrowth, partic. Acacia
sp. (Hickory Wattle); scattered
tall smoothbarks, odd stringybark
Eucalyptus on acacia saplings.

SITE 5: dry sclerophyll forest;
some areas of abandoned

grassland with regrowth
of same Acacia & smoothbark
sapling; more stringybark,
odd ironbark; dried up short
grasses. Culinaria again mainly
on Acacia

SITE 6: end of transect;
essentially similar to SITE 5.
Deeper soils, better grass, more
open forest.

4/8

726.1 = 606.0 of 2/8 (Eilectra)

Walked ca. 1 km SSW along
track of 2/8. Turned S + SE for ca. 1 1/2
km (SITE 7) along spur towards
Pine Cr. through similar ridge
country to 2/8. Hit lower *de paupere*
rainforest ca. 4 km before Pine
Cr. & ca. 1/4 km SSW along Pine Cr.
(SITE 8)

M

Please describe from

In good order and condition

Continued SSW through open grass
land (old farm land) - on into
open dry sclerophyll forest (51th 9)
very similar to Site 6 of 3/8
